

Governance Model (WIP)

Governance, Operating Model and Product Management - Initiatives - David

- WS 0.1 Set up steer co and operating model
- WS 0.2 Ownership map, who is responsible for what
- WS 0.3 UPE single source of truth and comms
- WS 0.4 Product Management
- WS 0.5 Funding and resources

UPE Governance Kanban board

	Title	Owner	Target Date	Stage	Checklist	Notes
1	Get alignment on UPE with Buildings, Energy and Transportation	David Thomson	Thu, Mar 26, ...	To do		
2	Set up Steer Co	Mikko Viitanen		To do		

1. Purpose

Governance purpose

- Ensure the product vision, OKRs, and roadmap are aligned across GBAs
- Provide a forum for prioritization and trade-off decisions
- Secure ongoing sponsorship and unblock escalations
- Maintain clarity on responsibilities and decision-rights
- Track progress against business outcomes
- Provide a audit trail of decision making

2. Objectives (example)

Draft OKRs:

Objective 1: Establish a unified decision-making framework for UPE.

- KR1: All GBAs agree on prioritization criteria by X date
- KR2: Roadmap approval process documented and adopted by IDT + DDP heads
- KR3: Governance cadence formalized and running for two cycles

Objective 2: Ensure alignment on success measures for the UPE.

- KR1: Shared success metrics + acceptance criteria approved by stakeholders
- KR2: Quarterly OKR reviews in place with transparent reporting

Objective 3: Enable fast, transparent communication & escalation.

- KR1: SLA for decisions (e.g., within 10 working days) agreed
- KR2: Single source of truth for governance documentation + decisions

Refine.....

3. Stakeholders and Roles (example)

Suggestion:

	≡ Role	≡ Who fits it	≡ Responsibilities
1	IDT leads	Strategic alignment, unblock big decisions, approve direction + OKRs	
2	DDP heads + Product Owner	Prioritization, roadmap input, acceptance of success criteria	
3	Tech leads, architects	Standards, dependencies, feasibility, impact assessment	
4	You	Facilitation, decision proposals, roadmap shaping, clarity and synthesis	

4. Decision Framework

Key decision categories

1. Strategic direction / OKRs → *Steering Committee*
 2. Quarterly roadmap priorities → *Product Governance Group*
 3. Scope trade-offs / feature sequencing → *Product Owner + DDPs*
 4. Technical standards / architecture → *Tech Council*
 5. Operational decisions → *Working teams*
-

5. Governance Cadence

Suggestion

- Monthly steering committee → focus: risks, alignment, escalations
 - Bi-weekly governance group (DDPs + Head of DDP) → focus: priorities, success criteria, roadmap
 - Weekly working group → focus: progress, blockers, clarifications
 - Quarterly alignment workshop → OKRs, roadmap reshape
-
